

The Ideal Relationship Among Spiritual Organizations

Now if these be considered as you have spoke, other associations, fellowship, or organizations, then little that might be done. Yet if these be considered a portion of one and the same, then would they not be of service one to the other?

Now as we would see from these planes, that man who would serve the Christ would serve another. As we would see, that organization or association on this plane, that one would serve the Christ would serve another... . Share then one another's burdens, so fulfilling the Law of Christ.

Then see that work of others and promote, assist, help. Would it not be well on your plane if there were one organization in their work? Now such might be seen among you as impracticality. Yet for what other work may be done on your plane? And there could not be a greater. Is the concept beyond you?
