

## Lifting The Consciousness of The Planet

**Paul Solomon Source Reading 9286** You have touched the minds of many who now care and have a means to send caring, loving response. It is this consciousness, the new consciousness of the planet that will save the planet, not techniques, and not designs or instruments. There must be a lifting of the consciousness of mankind on this planet into a new level of thought, that the New Science may be introduced, that a new level of consciousness may be introduced. That challenge goes beyond all other considerations for meeting immediate needs.

Then the bringing together, the touching together, the linking together of the consciousness of those who are committed to love on this planet is the higher work, the highest work, the highest commission that is before you.

## Heal Yourself

**Paul Solomon Source Reading 9286** These troubled areas are only a focal point of that going on in the minds of individual men throughout the planet. Some have learned what is considered to be a more orderly process of working out these concerns in the mind and between individuals. Where there are younger souls there are the more direct confrontations and fewer subtleties. Who then is the more advanced? Those who have been more subtle in their confrontations, or those more direct? What you see is the evidence of a universal dis-ease among mankind. You simply live in an area of eruption of the symptoms, but you must heal the planet.

## You Cannot Extinguish Life

**Paul Solomon Source Reading 9313** Nor can life be caused to cease to exist. If you created of your planet a barren place, totally annihilating the expressions of life upon it, you would find that for a time it would seem to be barren, and perhaps ice would form, and then [after a time] begin to melt away, and with the melting a sprig of green would appear in photosynthesis and build the process of ever increasingly complex forms of life again to repopulate this place.

## Laughter

**Paul Solomon Source Reading 9125** Every time you cause laughter, you rebalance some of the energies of pain and fear and famine, hurt and war upon your plane.

**Paul Solomon Reading 9125** Knowing that you can express as a comedienne make that in itself a spiritual experience, a response to the Christ, an opportunity for the Christ to express the joy of the Lord through you. And we speak of this, the talent for humor, as being a higher talent than the teaching of the Word of the Lord for this reason: Teaching the Word relies often on

perfect expression, definition, use of words, and requires an interest of the one who hears, whereas humor demonstrates the energy itself. Where teaching requires a metaphor to say it is like this, it is similar to that, it can be thought of as this, as has been spoken through this channel in his example of the taste of the strawberry. A teacher can teach one, or another, what a strawberry is like – but they will not taste it, they will *think* about what it is like.

A humorist using joy in its highest form does not describe the taste of the strawberry but gives the taste itself into the experience, and it is Christ alive that will cause that response which relieves in the mind and the body, pain and hurt and fear. There can be no higher calling.

**Paul Solomon source Reading 9378** We have said before from these records that perhaps the highest ministry on this planet is not necessarily the work of an enlightened teacher or even a talented healer, but one of the highest of all ministries is that of the humorist, the entertainer. One who can lighten the spirit and cause others to laugh, for laughter is the primary expression of love. And where laughter lifts the spirit, there is the opportunity for the opening of the gateway of the heart.

Each time a performer, an entertainer, causes laughter on this planet, there is the overcoming of a death or a tear at another place on the planet. We hope you will understand this. He who causes people to laugh has balanced some of the fear, the hurt, the pain which is occurring in other places. And where you can arouse more and more and more of laughter, of singing, of expression of joy and entertainment, we simply assert to you that there is no higher service to God on this planet than that simple service.
